Portuguese & EU Work Permit

Leiria, Portugal

SUMMARY

DevOps Engineer with one year of hands-on experience at Bosch automating software delivery with Python, YAML pipelines and Jenkinsfiles (Azure DevOps, Jenkins, GitLab). Experienced with containers (Docker), relational databases (PostgreSQL), REST API integration and troubleshooting pipeline and production failures. Looking for a DevOps role where I can deepen my skills in automation, containers and observability.

MAIN SKILLS

Automation & CI/CD	Python, Bash, REST APIs, Azure DevOps Server, Jenkins, GitLab, YAML pipelines, Jenkinsfiles, Git
Containers & Data	Docker, Grafana, PostgreSQL, SQL Server, MySQL

EXPERIENCE

DevOps Engineer Intern Nov 2025 – Oct 2026

Bosch Service Solutions — Ovar, Portugal (hybrid)

- Automate a software release process previously done manually by developers, with Python scripts and Azure DevOps YAML pipelines using reusable templates.
- Orchestrate release stages across GitLab (fork, merge request, merge and tag polling) and Jenkins jobs, using stage dependencies and self-hosted agent pools to run independent jobs in parallel.
- Designed the pipeline to be idempotent: after an agent failure, reruns detect existing Jenkins builds and GitLab merge requests instead of duplicating work.
- Troubleshoot pipeline and production failures to improve deployment speed and stability; gather requirements with developers and stakeholders and document complex release workflows.

Python · Azure DevOps · Jenkins · GitLab · YAML pipelines · PostgreSQL · Grafana · Docker

Python Developer Intern Aug 2024 – Nov 2024

Playads.io — Leiria, Portugal

- Developed Python scripts for web automation on platforms like Pinterest and Facebook, including image posting and data scraping.
- Integrated AI APIs for automated image generation and manipulation.
- Created prompts and optimized workflows for efficient task automation.

Python · web automation · AI APIs

EDUCATION

TETP in Information Systems (1500h) 2023 – 2024

Instituto do Emprego e Formação Profissional — Leiria, Portugal

Postgraduate Specialization in Criminal Forensics & Forensic Sciences (432h) 2019 – 2021

IPOG – Instituto de Pós-Graduação e Graduação — Brazil

Bachelor's Degree in Biological Sciences 2015 – 2018

Universidade Federal do Pará — Belém, Brazil

TECHNICAL COMPETENCES

Automation	Python, Bash, REST APIs, Selenium
CI/CD	GitLab, Azure DevOps Server, Jenkins, YAML pipelines, Jenkinsfiles, Git, GitHub
Containers	Docker
Observability	Grafana
Databases	PostgreSQL, SQL Server, MySQL
Other languages	C, C#, C++, HTML, CSS, JavaScript
Methodologies	Agile (Scrum, Kanban)

INTERPERSONAL COMPETENCES

Communication	Gather requirements with developers and stakeholders; document complex release workflows.
Teamwork	Work with developers and stakeholders to automate shared release processes.
Problem solving	Diagnose pipeline and production failures to improve deployment speed and stability.

LANGUAGES

English	B2
Portuguese	Native

PERSONAL PROJECTS

Odoo 19 Installer

Bash · Ubuntu · PostgreSQL github.com/samanta-bordallo/odoo19-installer

- One-command script that sets up a from-source Odoo 19 development environment on Ubuntu: PostgreSQL, Python virtualenv and configuration.
- Safe to re-run: it reuses existing clones and skips steps that are already done.

Personal Finance Observability

Docker Compose · PostgreSQL · NocoDB · Grafana github.com/samanta-bordallo/personal-finance-observability

- Containerized stack with PostgreSQL for storage, NocoDB for data entry and Grafana for dashboards, with memory limits per service.

3mf-qr-card

Python · 3MF · Claude Code skill github.com/samanta-bordallo/3mf-qr-card

- Generator for two-colour, 3D-printable QR-code cards that checks the code decodes before writing the file.
- Used to print the cards I handed out at a job fair; documents what worked and what did not.

AI Image Generator

Python · Flask · Stable Diffusion · NocoDB github.com/samanta-bordallo/ai-nocodb-image-generator

- Web app that generates images with Stable Diffusion v1.5, with prompts from NocoDB and a local fallback.

COMPLEMENTARY TRAINING

Microsoft Office Specialist: Associate (Office 2019) 2025
Microsoft — Word, Excel and PowerPoint

.NET Programming (350h) 2023

Leadership and Coaching (25h) 2025

Stress Management and Conflict Management (25h) 2025

Leadership and Teamwork (25h) 2025
